

Project Overview

As of April 24, 2012

Current conditions on Karl Road

Karl Road Improvements – State Route 161 to Schrock Road

Description and Benefits: The project will replace the existing pavement, curbs, curb ramps and sidewalks as well as install new street lighting. A left-turn lane will be added at Alpine Drive & Karl Road to better facilitate traffic flow and volume. Some traffic signal improvements will be made at the Karl & Schrock roads intersection. Water and storm sewer upgrades are included in the project.
